PROFILE SUMMARY

Targeting **Full stack Developer** roles with an organization of high reputewith a scope of improving knowledge and further career growth.

- Full stack Developer with a strong background in building scalable web applications
- Demonstrated ability to manage and deliver projects **efficiently**, from initial planning and design to final deployment and maintenance.
- Committed to **staying updated** with the **latest industry** trends and technologies, continuously enhancing skills to provide innovative solutions

PROJECTS

Sweet Cravings - E-commerce Website [\(GitHub Link\)](#)

Jan 2024 – June 2024

Tools: HTML, CSS, JavaScript, PHP, MySQL

An e-commerce website named "Sweet Cravings" designed to provide a seamless online shopping experience for dessert lovers. The platform features a wide variety of sweet treats, user-friendly navigation, and secure payment options.

Responsibilities:

- Developed the front-end using HTML, CSS, and JavaScript to create a visually appealing and responsive user interface.
- Built the backend using PHP to handle server-side logic and integration with the database.
- Designed and managed the MySQL database for efficient storage and retrieval of product and user information.
- Implemented secure payment gateways to ensure safe transactions for users

Project Management System [\(YouTube Link\)](#)

December 2024- Current

Tools: HTML, CSS, JavaScript, C# with .NET Framework, MySQL

A comprehensive system developed to streamline project workflows by integrating SDLC models like Waterfall and Agile. The system includes features for task management, team collaboration, progress tracking, and role-based access control.

Responsibilities:

- Designed a user-friendly interface using Figma for intuitive navigation.
- Developed the front-end with HTML, CSS, and JavaScript to ensure a responsive and accessible experience.
- Built the backend with C# and .NET Framework to handle business logic and integration with the database.
- Managed the MySQL database to store and retrieve project-related data efficiently.
- Implemented dynamic Gantt charts for visual progress tracking and role-based access control for enhanced security and functionality.
